A. Inventory & warehouse data (Warehouse Wizard)

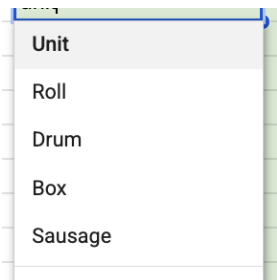

● A1. Finish the inventory spreadsheet

The following inputs will be ready by August 13. We want to have the tool live and ready for the team to login and use by August 14

Goal launch date is Friday, August 14.

On Hand (current quantity) [Inventory at warehouse](#) – We will provide any inventory that needs to be logged under **column J**. If this column is blank after our deadline, we do not need to log the items strictly. We only need to log high-value items.

INVENTORY LOG – Column D under [daily inventory](#) should only have 4 options. Default all items to UNIT if they don't fit into these categories.

Tools – Will be updated with our real tools

Trucks – See note re users. Not everyone will be responsible for doing the tasks on list, only the person who logs in and checks off the tasks that day will earn points, given any user who uses the tool the ability to earn points. If someone doesn't login and check off items, they just won't earn points as they're not taking action.

We had a scenario today where the crew member didn't check the gas at the warehouse and got to the site and ran out of gas. The manager had to take an hour out of his day to get him gas so the truck could make it to the closest gas station. This is why we're creating

these check lists, to help them from making silly mistakes and to save everyone time by being properly prepared at the beginning of the day and prepared for the next day by doing things right before they head home.

CREW+

Goal launch date is Friday, August 28.

We hope to have this tool live and being used by the crew by end of August

People, performance & compliance (Crew+)

***NEW* SICK & VACATION DAYS**

Each member of the crew has 5 paid Sick Days, 3 unpaid sick days & Vacation Days they need to track

Sick Days **Eligibility:** Applies to full-time, part-time, temporary, and casual workers after **90 consecutive calendar days** of employment with the same employer

The crew can use their sick days and vacation time between January 1 to December 31. Then they renew.

The sheet below shares the reminders that need to go out to the crew via email & text to show how many vacation days they have left.

We don't want to send reminder to use sick days, but definitely vacation days

Deadlines to provide their input: September 30, December 31, March 31, June 30

***NEW* Incident Report**

- See PDF
- Is there a way to make this a form on the tool?

THE CREW WILL NEED TO INPUT THIS INFO INTO THE TOOL:

Up-to-date address & emergency contact

OUR VALUES: Helpful | Clear | Professional

- **Your safety is of the utmost importance.** If you feel unsafe at any time during your workday, **stop**. Present the issue to the most senior Van-Isle team member on-site. That person will contact Jesse Dares, who will speak directly with the site supervisor about the problem.
- **Respect everyone.** We must be professional in transit and on the job site. This includes how we treat team members, other contractors, and job site staff.
- **Relationships matter, and our customers are vital to our success.** If you have a comment or concern about a job site, please contact Jordan Rogers so he can address the issue directly with the appropriate parties. Unless otherwise discussed, only Jesse Dare can speak directly with superintendents.
