

These will be input directly into the tool the week of October 2.

- Mileage and last-service fields for trucks
- Tools
- Crew personal data & certifications

Questions:

- How much will these tools cost to run on a monthly basis?
- How do we reach out to do you to do revisions/tweaks to the sites?

A. Inventory & warehouse data (Warehouse Wizard)

Developer Feedback

- **CFO Login Request -Needs to see:** Inventory used for the month: item, quantity, unit, job and date. And quantity on hand at month end, with the unit and the count date.
- Inventory log and all reports - need to be able to print by a date range as the CFO will only want to review logs by **month**. At current, it gives a total but a date, but it's not clear what the date range is.

We need to split up these sections. Right now the warehouse and services tasks are under trucks, but it's hard to understand. Need three different categories.

NEW TASKS - Main menu item

Trucks - This is a sub section with truck-specific action items, this includes:

- <https://docs.google.com/spreadsheets/d/1EKxNsSK7GyZ3OYhTupU9XLWnv9tgj79SoyFF-jE0Ck0/edit?gid=1627573410#gid=1627573410> → The vehicles they can choose from, minus the Mazda

Warehouse Tasks - separate sub section

***NEW* CURRENT JOBS - Main menu item**

A section with the latest active jobs pulled from SuperCrew or Quickbooks

- A list of all active jobs + customer contact info + job docs & files

The fields that need to be filled are:

- Company
- Job Name
- Job Address
- Site Contact Name
- Site Contact Phone
- Site Contact Email
- Start Date
- End Date
- Documents & PDF's: Is it possible to have an area where all active jobs live and we create folders and upload PDFs, docs and photos there so the crew can see site plans? Or, for something even easier, we can share a link to a Google Drive folder where the jobs' files live.

Documents

 Plans now have a dedicated workspace
Bring plan sets, markups, and critical project details together in Plans and Specs, making it easier to keep teams aligned and work from the latest information.

Crew member job descriptions and KPIs won't be ready until October or later as we are working with a business coach on these

Send the following reminder to all full-time crew on October 15th of every year.

HEALTH SPENDING ACCOUNT

Hi All,

This is a reminder to use your Health Spending Account!

Important Information about the HSA

You must use the money from now until December 31 of the calendar year. The amount will renew on January 1 of next year.

Please [log in to the app](#) to see your remaining balance.

Here is a breakdown of how the Health Spending Account works:

- The employee spends \$100 on the bill.
- The employer will remit \$100 **plus** the 6% admin fee **plus** the GST on the admin fee (in this scenario, it would be **\$106.30** the employee will pay out)
- The employee gets \$100 back.

The HSA is not insurance. Employees can explore insurance through a different avenue or product.

Developer Requests

Note: Since Josh and Logan are no longer with the organization, put any points they've earned into a CREW pool we will use toward a company breakfast.
