Warehouse Wizard

<https://docs.google.com/spreadsheets/d/1EKxNsSK7GyZ3OYhTupU9XLWnv9tgj79SoyFF-jE0Ck0/edit?gid=728197960#gid=728197960>

TESTING: We will test the live site and provide input and feedback August 19 & 20.

CREW USE: We want to have the tool live and ready for the team to log in and use by August 21.

A. Inventory & warehouse data (Warehouse Wizard)

UPDATED: The missing inputs will be ready by August 18.

NEW Maintenance Requests

We need an option under TRUCKS where anyone on the team can request a maintenance request for a tool or truck. As soon as it's filled out, the alert should go to the Crew Lead & Owner (Jordan Rogers) to review and respond. They should be able to pick a specific truck or tool from our lists and add a maintenance request.

Please add this feature to the tool and include this real-time Example from Jesse Dares that was emailed on August 12:

The Dodge cab cooling/heating system needs attention. The truck doesn't really have heat. It only Blues luke warm air out of the defrost and cold air from all other vents. It's fine for the summer. But once the weather cools off I'm going to need that repaired."

Developer Feedback

Inventory Logs

- [Daily Inventory log](#) is where the crew must track what they DELIVERED, USED or RETURNED -> Log materials used & delivered + Submit log would live under this section
- [Warehouse Inventory](#) is where the Crew Lead must track what we have in the warehouse -> The general list of items, quantities and cost live here

I'm wondering if we need a general INVENTORY section and a DAILY LOG section so the crew has a specific area to track their daily materials?

Points Earned

Can you remind me how the crew gets notified to cash out their points every quarter? If they don't cash them out, they accumulate, but they should cash them out by December 31 each year.

Missing full list of trucks (minus Mazda)

Fleet

Truck 1 - Ford F-350

184,250 km · last service 2026-06-19

Truck 2 - RAM 2500

97,430 km · last service 2026-05-01

Van 3 - Transit

61,200 km · last service 2026-06-30

CREW+

UPDATED: The missing inputs listed below will be ready by August 25

TESTING: We will test the live site and provide input and feedback August 26 & 27

CREW USE: We want to have the tool live and ready for the team to log in and use by August 28

People, performance & compliance (Crew+)

QUARTERLY REVIEWS

EMPLOYEE VERSION: These are the questions that the EMPLOYEE should complete at least 1 day before their quarterly review. The results will be discussed with the person they report to:

<https://docs.google.com/document/d/14OipOD1PWliM3qb029QHr5e5l1p1uBFrfvv6NOFzgT8/edit?tab=t.0>

MANAGER VERSION: These are the questions the manager should ask and track during the quarterly review

New Hire onboarding + restricted access

Nothing upgrades automatically: once 3 days pass, Admin/HR gets a flagged prompt to review and grant full access — it stays your call.

We know almost instantly if they will work out, so I've made it a shorter time frame

Point values — confirmed and live

4-number structure is perfect
